**ARIZONA RIVERS TO
BECOME NURSERIES
FOR EASTERN CLAMS**

How would you like to have a good old-fashioned clam-bake, right here in Arizona, like you "used to have" back east in "the good old days."

You cannot do it today or tomorrow, but you will be able to in a few years, if the plans now being matured by the state game warden, Joe V. Prochaska, work out properly.

He is arranging to plant the big eastern fresh water clams and mussels in Arizona rivers, in the Salt, Verde, White and Black rivers, and if they grow and multiply properly the time will soon be here when clam-bake parties and clam-bakes will be regular features of the landscape.

Fresh water crawfish, or, more properly, "crayfish," are to be planted here, too, and they have a multitude of uses. The big ones, that attain a length of some six or eight inches are fine when broiled or made into what the Italian fisherman calls a "chupine"—though he may not spell it that way—and the young crawfish, say about the size of your little finger or less, make the finest bait; ask any old fisherman from "back east."

Prochaska is now in correspondence with the game wardens of various eastern states to complete the arrangements to "seed" the Arizona rivers with these succulent bivalves and mollusks, and there is no apparent reason why they should not thrive.

**PUT SMALL HOUSE ON
FINE TRACT—IS SUED**

Claiming that the defendant failed to live up to the building restrictions on property in the Rancho Bonitos subdivision, the James Realty company yesterday instituted court action against Roy J. Hockery, an owner of a lot in the tract.

According to the plaintiff the tract

was laid out for choice and attractive residence property in 1908. One of the lots was sold to Robert J. Imbach, who later conveyed the lot to Hockery. Notwithstanding the covenants and provisions of the deed it is alleged that Hockery caused to be erected a small frame structure not exceeding \$400 in value although the minimum cost was restricted in the deed to \$1,500.

Charging that such a "building is unsightly and out of harmony with the other buildings in the subdivision" the plaintiff claims that the tract will depreciate in value if it be permitted to remain. The plaintiff asks that the defendant be required to show cause why an injunction should not be issued requiring the defendant to remove the building or rebuild in compliance with the covenants.

**COMMITTEE MEETS
THIS AFTERNOON TO
"WELCOME HOME"**

A meeting of the committee who will have charge of the entertainment of the returning soldiers, sailors and marines, will be held this afternoon in the chamber of commerce at 3 o'clock. A large attendance of the members is requested by the officers.

Further details in regard to the big celebration, planned for the ex-service men, will be arranged at this meeting and the program for the event will be announced within a few days. The date of arrival of the 158th infantry in Phoenix will be determined by Major Claude Decatur Jones, of the reserve corps, during his stay in El Paso, where he will go with Governor and Mrs. Campbell tonight to extend welcome of the state of Arizona to the boys when they arrive at Ft. Bliss.

The committee in charge of the entertainment wish it understood that the celebration to be held here in the near future, perhaps next week, will not be in honor of the members of the 158th infantry alone, but for all the men who served in the great war, whether they were overseas or in the home camps. The day for the celebration, however, will probably be held on the day the 15th arrive in this city.

**COLORED POPULATION
OF PHOENIX RALLIES
FOR LOAN TOMORROW**

Sunday evening at Irvine park, Ninth avenue and West Grant street, the colored population of Phoenix and the county will hold a big meeting, which will be a rally in support of the Victory loan drive. The program will start at 6 o'clock sharp.

An interesting and thrilling program has been arranged, with something of interest in it for everyone. A military band will supply martial music, and good speakers who have seen actual service in France will tell of their personal experiences.

The principal speakers will be three overseas colored soldiers, Pvt. Brown, of the 369th infantry; Sgt. Ford White, 49th machine gun battalion, and Pvt. Lloyd Shomo, of the 37th supply train. These boys have all seen war at close range, and their stories will be interesting in the extreme. Private Brown was a member of the old 15th New York national guard, colored, under Colonel Bill Hayward, which was the first unit to land in France, and the first to fight. His organization earned the name of "The Rattle Snakes" through capturing the famous Rattle Snake Hill in as many hours as it had previously taken the French in months. Brown fought all through the war, without being once wounded.

Sergeant White fought at the Argonne and the Meuse sectors, as did Private Shomo, and at the time of the armistice these boys were stationed on the pivot sector near Metz.

The colored population of Arizona, as of the entire United States has always done its share of everything connected with this war. Their fighting men were among the first and best we sent to France, and here at home they lent monetary support to the best of their ability.

It goes without saying that our colored citizens will stick. And this meeting is the start of the finish of the job. Every colored person in this city and its environs is urged to attend.

**BOY SCOUT MEDAL
WINNER FOR WORK
IN LOANS NAMED**

The Boy Scouts of Phoenix who had the honor of piling up the largest subscriptions to the third and fourth Liberty loans were awarded their medals of honor last night at Trinity Cathedral, headquarters of Troop number two.

Those boys, who in the contests staged during the third loan won high place, were awarded bronze medals, suspended by a ribbon from a pin. The winners of this decoration were Stanley Cronin, Milton Jack, Charles Wartman and Edwin Blair.

Winners in the fourth loan received similar decorations, the lucky boys being Victor Stewart, John Girand, John G. Bennett, Fay Griswold, and Weldon Burkhead.

Winners of especially high honors were awarded a bronze medal suspended by a ribbon from a bar instead of a pin, these being Milton Jack, Charles Wartman, and Edmund Blair. Troop number two of the Boy Scouts has 32 members, and 27 of them were present last night to see the medals awarded. Entertainment was afforded by "Sailor" Brown, who sang, accompanied by Mrs. Brown.

Opportunity for the winning of further honors by the Boy Scouts is to be given in the last week of the Victory loan, when another contest will be staged.

**LIVE STOCK BOARD
MAKES A NUMBER
OF NEW RULINGS**

Several actions of the greatest importance to the livestock industry were taken at the meeting Thursday of the livestock sanitary commission, all members being present.

A resolution was passed anent the matter of tuberculosis in cattle that is designed to prevent its importation into the state. The resolution provides that all bulls, pure bred cattle, and dairy cattle brought into the state must have passed the tuberculin test and be accompanied by a proper health certificate issued by the board on the report of a competent veterinarian.

Another resolution provides for keeping contagious abortion out of the state by specifying the method of disinfecting all bulls imported into the state.

All inspectors hereafter will be required to send in a report showing their activities in behalf of the board every day; the report to be on file before their salary claims are allowed. Blanks for the daily report will be furnished.

Owing to the complaints of numerous infractions of the livestock laws in Mohave county, the board has detailed Inspector S. N. Moore, now stationed in Yavapai county, to proceed to Mohave county and take charge of the situation as inspector and detective.

**SCHOLARSHIP EXAM
FOR H. S. STUDENTS**

This year's graduates of the high school are eligible to take the University of Arizona scholarship examination, according to information given out by A. J. Jones, county school superintendent yesterday.

Superintendent Jones stated that the question had arisen as to whether or not the boys and girls completing the high school course the latter part of May were "high school graduates," one of the requirements of the candidates. He said that it had been decided to allow them to take the examination provided they had a statement from the high school principal that their grades were passable.

The scholarship test will be held in the school administration building on May 3.

*"Nothing But Bargains"***Korricks' Economy
Bargain Basement****NEGLECTED HIS FAMILY
FOR BOOZE, IS CHARGE**

Charging her husband with squandering his money at the gaming table and in the purchase of liquor, Mrs. Hazel L. Burg yesterday brought suit for divorce against Louis B. Burg, whom she married in this city in March 1915.

While he had funds for his amusements, the wife alleges he failed to provide for his family, which consists of herself and their three children, Frances Elizabeth, aged 3, and Louis and William, twins, seventeen months old. Burg, according to the complaint, earns \$6.50 a day.

The plaintiff sets forth cruelly that her husband cursed her and on at least one occasion assaulted her.

**MUCH RED TAPE TO GET
CHALCEDONY SLAB**

The commission of state institutions are having quite a difficulty in getting the authority necessary to allow them to secure a slab of chalcedony (the so-called petrified or agatized wood) from the National Petrified Forest, to be used for a memorial slab in the Washington Monument.

They wrote for permission to the district forester at Albuquerque, were referred to the General Land Office at Santa Fe, and by them referred to the director of the National Park service, Stephen Mather, in Washington.

Mather is understood to be a lineal descendant of Cotton Mather of colonial fame, but the commission has hopes that he will not be as "straight-laced" in the matter of letting them have a fine piece of chalcedony as was his illustrious ancestor in the matter of red tape.

**JOE GARCIA'S APPEAL
FOR THE VICTORY LOAN**

Joe Garcia is a 12-year-old youth or whom you may have heard. He is employed by The Republican in fiduciary and other capacities, and he works steadily for The Republican in intermissions in his long list of other activities, in which is included a more or less regular correspondence with General Pershing in France, who is supplied by Joe with reading matter and is thus afforded a correct view of things in general from the viewpoint of The Republican.

Joe has taken the Victory loan under one wing, and he has submitted to this paper the following editorial which, however, came in too late, for the rash and precipitate foreman had already closed the forms:

"Why did our boy went over there to fight in the trenches to keep the Germans from killing women and children? They have save all the world and make it peaceful for all (except the Italians, the Jugo Slavs and President Wilson.)"

"Some of our boys arm are cut off; some of them are blind and cripple and lot of them are dead killed in the trenches. So please be patriotic and buy Liberty loan and help our government and boys. Victory Liberty loan."

**TO RECEIVE BIDS ON
FAIR GROUNDS UNITS**

Bids for the construction of the new and needed units at the state fair grounds will be advertised for at once, according to an announcement made yesterday by Chairman Baumert of the commission of state institutions.

The new structures for which bids will be asked are four stables and 32 single boxstalls, to replace those lately destroyed by fire, a swine building, bleachers around the stock judging stand for spectators, and an imposing

**LADIES DAY TODAY AT
FEDERATION LUNCH**

Miss Olive Johnson, assistant immigration secretary of the field committee for the Pacific coast of the National Y. W. C. A. board, has spent the last few weeks making a survey of the progress of Americanization in this state. A report of this survey will feature the program on Americanization at the Church Federation luncheon at noon today.

This will be ladies' day. Let every member bring his wife, sister, mother or friend. The women whose husbands have not thus far become interested in the federation should bring their husbands. The lunch committee request those who are not regular attendants to phone 1874 if they are to be with us, otherwise some may go hungry. Luncheon at 12. Program, 12:30 to 1 o'clock.

**FIRST MILITARY BALL
PROVES BIG SUCCESS**

Phoenixians danced their first military ball last evening, the premiere social affair of this nature ever held in this city and, consequently, it was not at all surprising that local ball room records were broken.

The event was officially scheduled as the first annual ball of the Great War Veterans' association, and those given to the light fantastic can assume that similar events will follow in years to come—which will indeed be a big social feature, if last night's dance can be taken as a criterion.

It was shortly after 9 o'clock when meeting.

**RETURNED ROTARIANS
TELL OF EXPERIENCES**

Impressions gained at the Rotary conference at San Diego by the delegates from the local club was the principal feature of the regular luncheon of the Rotary club yesterday. Wallace Button, the president-elect of the club; Bob Parker, Lee Fitzhugh and Tom Whitney gave interesting reports concerning what they learned of benefit to the club.

Col. Power Conway spoke at short length, but very forcibly on the apparent lack of interest in Phoenix and Maricopa concerning the Victory loan. He told of the returned service men who were working without pay for the loan and called upon the members of the Rotary club to say whether they would put their shoulders to the wheel. There was a unanimous response that they would.

Mel Fickas and Captain Roy Thomas, both Rotarians who have recently returned from service with the American forces, were given a great reception and responded by telling a few of their experiences. Mel Fickas made a plea for the doughboy, saying that although it was the general and the other officers who got their pictures in the paper, it was the doughboy who did the work and was entitled to the credit.

Prof. John D. Loper told of the coming \$100,000 bond election for the betterment of the school facilities. He described the needs of the schools. J. T. Whitney was chairman of the

the dancers, more than 300 of them, formed for the grand march. Headed by Governor and Mrs. Campbell with Captain and Mrs. C. D. Jones and Captain and Mrs. V. H. Harding, the marchers wound their way about the spacious auditorium in a manner that reminded one very strongly of military drill.

Besse's eight-piece orchestra supplied the music for the 20 dance numbers, which included all the favorites from waltz to a fox-trot. Indeed, nothing was excluded. Taps were sounded at midnight.

The floor marshal staff in charge of the dance proper consisted of Claude Decatur Jones, Temple F. Penrod, E. J. Myers and W. W. Carpenter.
